Subject: Alaska HHC Question- Regional Considerations

Gentlemen,

If you are not working on much more pressing things...

I'm curious about your informal thoughts on the workgroup's discussion on regional issues such as marine mammal consumption, possibility of having a different trophic level specific to Alaska, and how that could affect Alaska's rulemaking.

Furthermore, is there federal resources available to develop a trophic level 5 should such a need exist?

Thank you for your consideration,

Brock Tabor
